

How To: Create a Virtual Runway Show

1 GLAM IT UP

You can wear anything you want! Put on your comfy clothes, beachwear, or even a ball gown. You can even give yourself a glamor look for hair and make-up, or simply put on a baseball hat!

2 TURN IT UP

We want to make sure everyone is on the same beat when they dance. Turn on Lady Gaga's, *Edge of Glory*! Don't worry about how loud the music is on your video. We're grateful for Cooper Hound Pictures who will be editing the video.

3 HIT RECORD

... and start dancing! If you're using your smartphone, be sure the phone is landscape. Record some of the video with you dancing on the right, center, and left sides of your screen.

...and most importantly, **HAVE FUN!**
