

RUNWAY FOR RECOVERY

Runway for Recovery provides families with a continuum of support along their journey with breast cancer. We create community by hosting events and providing services that create joy and inspire hope. With shared understanding we celebrate survivors, honor legacies and fund families.

TESTIMONIALS

"For kids who would otherwise only associate breast cancer with suffering and fear, Runway gives them a new lens to think about their mom's experience, a community of people who know what it's like, and some tangible programs that can help make their lives a bit better."

"I love the support and sense of celebration that the event imparts to participants and attendees as well. The event is a celebration- cancer does not usually bring a feeling of celebration."

"Having our children walk with us is really special. My kids look forward to this event every year. They love the community that you have created and they feel safe, loved and a part of something big that is helping out others with breast cancer. There's not a lot of events that do that well and you have knocked it out of the park."

"The ripple effect of Runway is boundless. It brought our family even closer, it brought friends together who hadn't seen each other in so long, and it brought those who were feeling empty since [our sister's] death a place to heal and for some closure and connection."

*Runway models are women, children, and men who are survivors, previvors and/or thrivers of breast cancer and the legacies of those who are no longer here because of the illness.
